

Schhh... releases 2 new albums, November 8, 2012

Schhh production present new albums by RIS OCH ROS and AS GOOD AS IT GETS

Schhh is a new label promoting unique sound art and music! Schhh production promotes artists that take an extra step whether they are refining their work or they challenge boundaries and explore uncharted territories. The new albums will be available at iTunes, Spotify, Amazon a.o.

RIS OCH ROS - No Service SE3JQ12002

RIS OCH ROS declares that they do not take any responsibility for their music! They were brought together by an external producer that also came up with their name. RIS OCH ROS deliver music without any guarantees. No service, no Wi-Fi, bad weather - BUT - Feedback, synths, cymbals, conductive threads, fixed and variable resistance, various electronic components and irresistible music!

Ann Rosén and Jakob Riis combine their long experience from sound art, improvised music and composition with conductive textiles, stitched synthesizers, laptops, cymbals and mixingboard feedback. No Service was recorded at Elektronmusikstudion EMS, Stockholm, December 2011 and mixed at Inter Arts Center, Malmö June 2012.

AS GOOD AS IT GETS - Theory of Everything SE3JQ12003

AS GOOD AS IT GETS is a duo consisting of the live electronic music veterans Lars Bröndum and Sten-Olof Hellström. They are explorers and experimentalists in search for methods allowing them to create music without falling back on clichés or favourite tricks!

AS GOOD AS IT GETS is on a quest to find the musical theory of everything and they invite you join them on their journey to unheard sonic continents.

Lars Bröndum and Sten-Olof Hellström are both since long composers and performers of electro-acoustic music. Their preferred instruments are analogue synthesizers occasionally spiced with some digital bits. Theory of Everything consists of live-recordings from Nya Perspektiv Västerås and Fylkingen Stockholm.
